### HOME

#### WHO WE ARE

Located in Mountain View, we are a bilingual preschool center that supports the Russian culture and language within an American context. We recognize that by providing a bilingual and bicultural environment, we are supporting the cognitive development of the child, as well as the relationships between the children and their families.

#### PHILOSOPHY

Our approach is one that integrates play with the academics children need to succeed in later schooling. We recognize that children must learn to navigate socially and emotionally first before tackling academic endeavors. At Tiny Einstein you will see this approach in action as the academics become more rigorous...

## PROGRAMS

### 2-3 YEARS OLD

At Tiny Einstein Child Development Center, we believe in providing children with the best! Our approach is one that integrates play with the academics children need to succeed in later schooling. We recognize that children must learn to navigate socially and emotionally first before tackling academic endeavors. At Tiny Einstein you will see this approach in action as the academics become more rigorous as the children age (see our classroom daily schedules for evidence of this approach).

[REQUEST A TOUR](#)

### 3-4 YEARS OLD

Our brand-new custom center supports the needs of our children completely, by providing them with the space and materials to fully explore and learn. We take our cues from the interests of the children, and expand on those interests by providing hands-on opportunities to learn. We support learning in all domains including dramatic play, math, literacy, art, science, music, and gymnastics and bring in professionals to work with the children and share their passions. We are inspired by and integrate components of several philosophies into our program, including Traditional Russian Schooling, Reggio Emilia, and Montessori.

[REQUEST A TOUR](#)

### 4-5 YEARS OLD

Our staff consists of a mix of native Russian and English speaking teachers who you will get to know well through our continuity of care approach. We believe in the relationships and attachments that happen between children and teachers and know that children thrive and learn best when those emotional needs are being met first.

#### APPROACH

At Tiny Einstein Child Development Center, we believe that each child has a gift and a great potential. Our enriched curriculum covers all the possible ways of child development that would help to reveal talents and potential of the students. Professional educators and pedagogues have been working many years to create the best well-rounded, collaborative, bilingual developmental program that would enable every part of child's brain. Every day is designed in a way that doesn't overwhelm, but brings various interesting activities within the preschool setting.

Here is the list of enrichment classes offered by our Center within the curriculum for no additional cost. During the year School might change or bring new additional activities that are not included in this list.
